USEO Poland

Reusable solutions for business

USEO Poland is part of the international USEO Group, specialized in manufacturing reusable tableware and cutlery made of high-quality plastics and composites. Our mission is to help companies shift from single-use models to reuse solutions, fully compliant with EU regulations and growing consumer expectations.

What makes us different

- **Durability and quality** – we use PP, Tritan, and WPC (Wood Plastic Composite), ensuring resistance to washing and multiple uses.
- **Sustainability** – we support the circular economy, reducing waste and CO₂ emissions.
- **Design and functionality** – aesthetic and practical solutions tailored for gastronomy, retail, and events.
- **Flexible production** – our own plant in Mińsk Mazowiecki (central Poland), allows fast response to market needs and product customization.

USEO Poland

Who we serve

- Gastronomy and catering
- Convenience and retail chains
- Events and festivals
- Airlines, rail and travel catering
- Public institutions and municipalities implementing deposit systems

History and experience

USEO has been active in the European market for over 20 years, supplying solutions for leading gastronomy and retail chains. In Poland, we have been present since 2007 – developing local production and supporting the transition to reusable systems across Central and Eastern Europe.

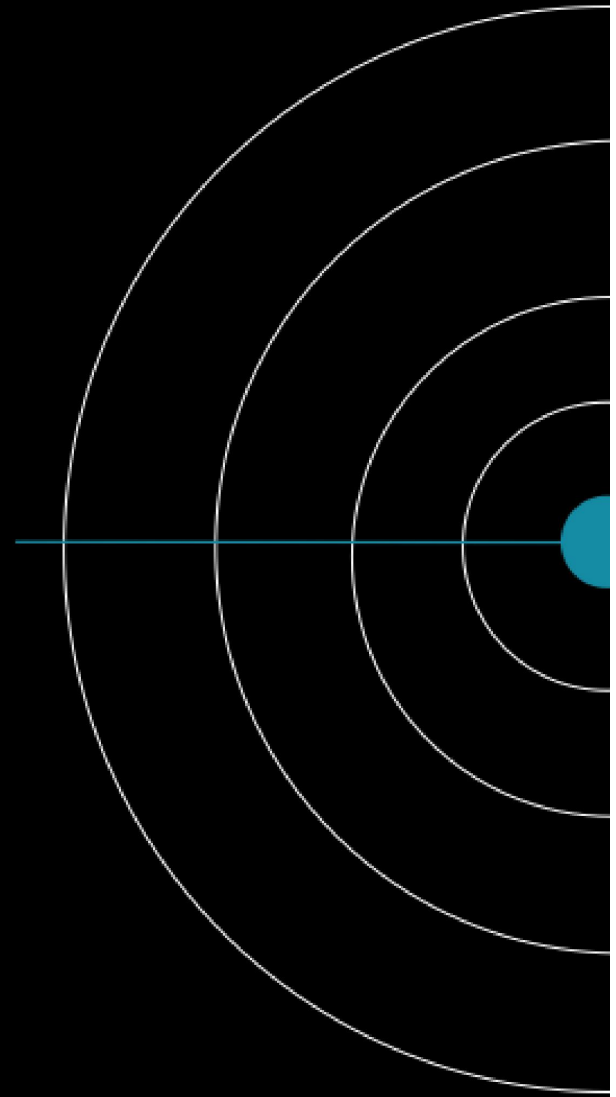

Our mission

“From single-use to re-use” – we deliver products that enable our business partners to adopt eco-friendly and cost-effective reuse models, without compromising on quality or convenience.
